

Kuwait's 4th International Energy and Petrochemical Exhibition

The oil and gas reserves of the GCC countries

GCC Countries	Oil Reserves Billion Barrels	Gas Reserves Trillion Feet
Saudi Arabia	264,8	253
Kuwait	99,4	63
UAE	68,1	215,1
Qatar	20,0	904,1
Oman	5,7	24,3
Bahrain	0,1	3

Prime Location

Kuwait International a leading organizer in Kuwait, with a modern exhibitions facility with six fully air-conditioned halls covering over 30,000 square meters of exhibition space, VIP Lounges and parking lot for more than 4,000 cars. Kuwait's 4th Int'l Energy & Petrochemical Exhibition will be held in Hall No. 8, (7,000 sqm). Now completing a full renovation with state of the art technologies and services. Our principal shareholders include the Kuwait Investment Authority – KIA (49%) and Kuwait Investment Company KIC (51%).

Opportunities

With 11% of the world's proven oil reserves, Kuwait ranks number 4 after the world's number 1 Saudi Arabia, number 2 Iran and number 3 Iraq. You will be at the heart of an area where tens of billions of dollars are being spent on exploration, development, production, refining, transportation, chemicals, power generation, water treatment and related services.

Kuwait counts many investment projects:

- Kuwait's current production capacity is 2.6 million barrels of crude oil per day. This will be increased significantly to 3.5 million barrels by 2015 and 4 million by 2020.
- Refining capacity will be increased to 1.5 million per day with special mention of the 600,000 barrels/day Al-Zour complex refinery to be completed by 2011

- Building new petrochemical plants like 'Aromatics
- Transportation and storage capacity, e.g. tanker fleet renewal
- Development of the new Dhadi II gas field
- Development north oil fields through the assistance of IOC's
- Building and modernizing production and export facilities and existing refineries
- Assessing investment opportunities in refining and marketing in the Middle East and Asia
- Anticipated Capital Investments of the Strategy until 2020

Total costs of expenditures to implement KPC's strategic plans are estimated at KD 19 billions (about US \$65 billion) distributed as follows:

- * Exploration and production inside Kuwait: KD 8 billion (27.2 billion)
- * Exploration and production inside Kuwait: KD 8 billion (27.2 billion)
- * Refining inside Kuwait: KD 5 billion (US \$ 17 billion)
- * Refining & marketing abroad: KD 2 billion (US \$ 6.8 billion)
- * Petrochemicals: KD 2 billion (US \$ 6.8 billion)
- * Transportation: KD 1 billion (US \$ 3.4 billion)

Why Participate:

1. Reach your target audience at KIEPEC 2011
2. KIEPEC 2011 – an opportunity to learn and see the first demand of the ME oil & gas industry
3. Meet decision makers with the authority to buy your products & services
4. Exhibit your latest technology & services
5. Local, Regional and International Promotion
6. Best Venue of Kuwait International Fair
7. Access to a large hotel network for accommodation
8. Easy access to Kuwait International Airport
9. Local, Regional and International Promotion (Press, International Sites, Trade Associations, various medias and Partner events)

General Overview

Kuwait an Opportunity

- Sovereign Emirate
- Parliament
- 5th richest country in the world
- GDP/capita \$60 000
- Population: 3,4 Mio
- 5,7 % GDP growth
- Good infrastructures
- Developed Banking System
- Free market economy
- Kuwait Stock Exchange \$235 billion of market capitalization
- 10 % of the world oil reserves
- Situated in the heart of the Middle East
- Freedom of the media
- System of Education
- World strongest currency

Oil & Petrochemical Ventures in the GCC States

- 6 countries of the GCC possess about 40% percent of the world's oil reserves.
- GCC revenues from oil & gas
 - o \$419 billion in 2010
 - o Increasing to \$457 billion in 2011.
- At current oil prices, this will generate the net foreign assets of the GCC to \$1,340 billion by the end of 2011.

Exhibit Profile:

(Onshore, offshore oil, gas and petrochemical industries)

- o Consultancy services
- o Communication systems
- o Constructing & Contracting services
- o Catering and support services for platforms
- o Corrosion technology
- o Chemical Engineering systems
- o Diving system, equipment and services
- o Down hole logging industries
- o Drilling and down hole technology and products
- o Exploration and production technology
- o Environmental control equipment & services
- o Gas processing equipment
- o Geological, geophysical and reservoir evolution technology
- o Industrial equipment
- o Information technology (I.T.)
- o Laboratory services
- o Lubricants
- o Marine equipment and technology
- o Oil technology equipment and services
- o Petrochemical equipments
- o Process technology and control services
- o Production & completion equipment & services
- o Pipelines engineering equipment
- o Pollution prevention and control
- o Power generating equipment
- o Refining , ring fabricator & operation education
- o Subsea technology equipment
- o Safety products and services
- o Welding contractors and equipment
- o Work over services

Target:

It will help the Government of the State of Kuwait meet its development priorities for the Oil Industry:

- o The improvement of existing energy.
- o The continuing development of the gas reserves and processing facilities.
- o The steady increase in crude oil production capacity.
- o The expansion of the oil refining capacity.
- o The development of petrochemical industries.

HALL No. 8

KIEPEC 2011

Kuwait's 4th International Energy and Petrochemical Exhibition

18 till 20 October 2011

Attendees:

- * State Government Officials & Specialists from Energy Industry & Safety sectors
- * Corporations Senior decisions makers & VIP's
- * Technical managers & experts
- * Engineering & specialist staff
- * Commercial management
- * Middle level administration & experts
- * Information technology support staff

- Air Transport
- Approvals testing & inspection
- Associations
- Communications
- Contracting Services
- Compressors
- Drilling equipment & Services
- Downstream, equipment & services
- Energy & chemical companies
- Engineering
- Engines & pumps
- Enhanced oil production
- Electrical equipment
- Exploration
- Geological services
- Gas processing
- Government institutions & services
- Instruments & control
- Logging & formation
- Liquefied natural gas technology
- Offshore equipment & services
- Oil & gas transport
- Oil companies
- Piping
- Platform engineering & construction
- Power and utility companies & services
- Process technology
- Process equipment & services
- Production
- Rotating equipment & services
- Security
- Safety
- Shipbuilding
- Safety equipment & services
- Security equipment & services
- Seismic equipment & services
- Ship, boat and vessel equipment services
- Underwater technology
- Turbo machinery
- Tubular & piping & services
- Underwater technology
- Turbo machinery
- Tubular & piping's
- Upstream services
- Valves & actuators
- Welding
